Instructions for Abdominal and/or Pelvic CAT scan

{ X } Drink 10 ounces of Read-Cat at bedtime the night before your CAT scan

{ X } Drink 10 ounces of Read-Cat 2 hours before your CAT scan

{ X } Drink 10 ounces of Read-Cat a ½ hour prior to your CAT scan

Diet Restrictions

- You may eat normally up until 4 hours prior to your Cat Scan
- You may have clear liquids up until your scan time
- Clear liquids include water, tea, Jell-O, ginger ale, apple juice, coke

Medication Instructions

- You may take all medications as normal, except Glucophage, Metaglip, Avandamet. Stop usage the day of your test as they will decrease your renal function.
- These medications can't be resumed until your physician orders follow-up blood work and receives the results.
